GRAPHIC

DESIGN BOOK

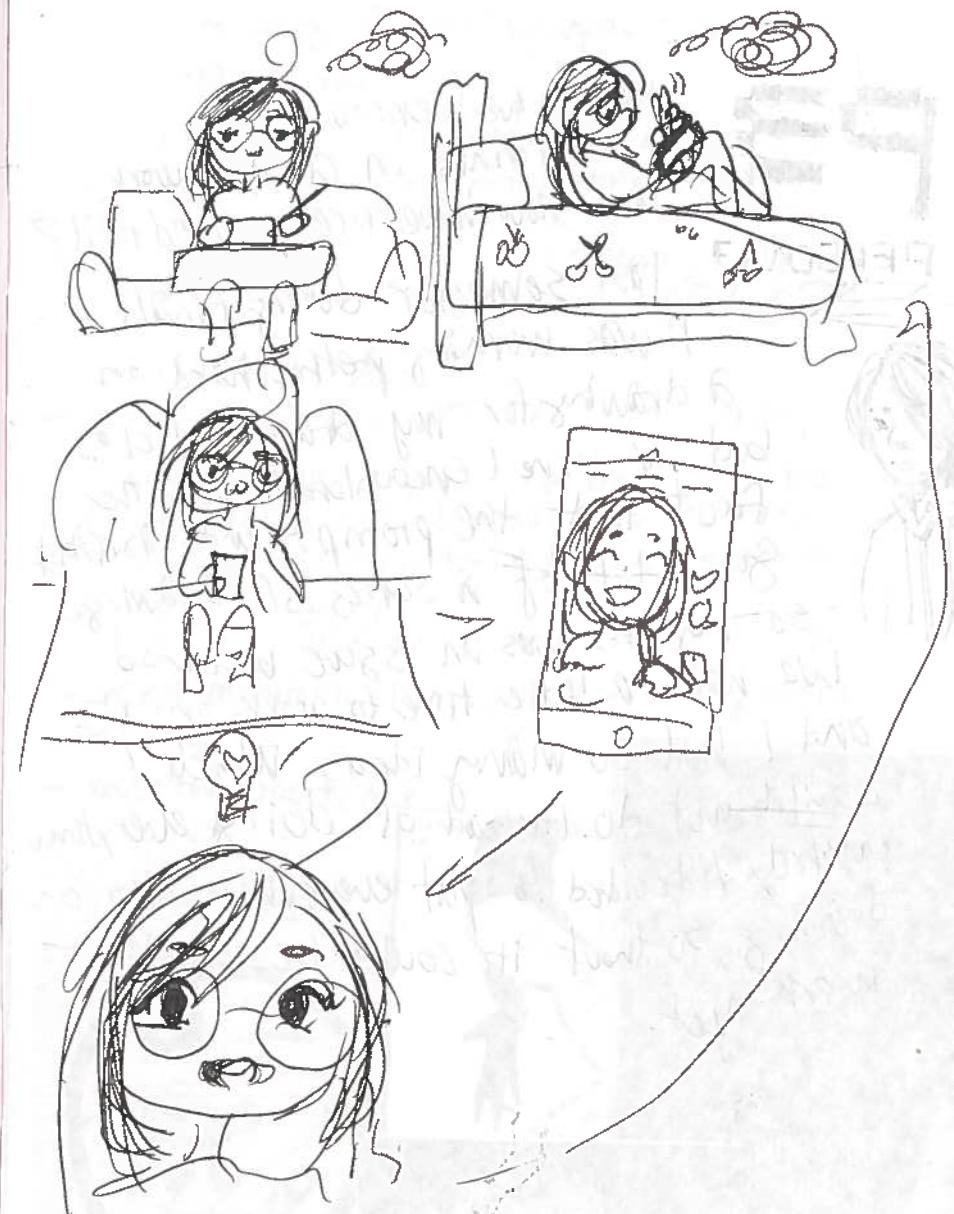

what is graphic design?

Graphic design is memory. As we looked at all the typography today ~~to~~ in the slides, I realized that most of the car related signs were a mixture of drawings / designs that show a scenario, while also being shapes that I've had to memorize. Graphic design is meant to capture your interest while also having to be useful enough to where you're able to understand what you are looking at.

words:

- memory
- interest
- useful
- understandable

PE

PERSONAS

How have I encountered constraints in creative work and how have I responded to it?

Last semester during finals I was working pretty hard on a drawing for my drawing class but an issue I encountered was the fact that the prompt was asking for a lot of a series of drawings. So my this was an issue because we had so little time to work on it and I had so many ideas which I could not do. Instead of doing everything wished, I decided to put everything into one drawing so that it could be my best work yet.

meaning of steganography { who is Tomaszewski }

- The meaning of steganography is putting information within another message/hiding data that can be extracted.
- its meant to avoid detection
- hidden within something that isn't a secret

Henryk Tomaszewski

- poster / graphic designer ^{artist} from Warsaw (1914-2003)
- would make simple and intelligent translations of messages and symbols from all things (literature, theater, film, music, social themes) into visual language.
- lived in Warsaw under Nazi occupation
- used minimalistic, sophisticated poetic devices
- mental Shortcuts

words:

- instability / balance
- Intricacy / Economy
- Transparency / opacity
- Depth / Flatness
- Sharpness / Diffusion
- Activeness / stasis
- Distortion / Accuracy

Balance: A stability produced by even distribution of weight on each side of the vertical axis (Merriam-Webster)

masses given
equal importance, or are considered or divided equally or fairly (Cambridge)

Instability: the condition of being likely to change, esp. unexpectedly (Cambridge)

Activeness: producing or involving action or movement (merriam)

- the trait of being active; moving or acting rapidly and energetically (vocabulary)

Stasis: A state of balance or equilibrium

stagnation (merriam)

- stoppage; slowing

- a state that does not change (Cambridge)

Sharpness: The quality of being sudden and very strong or刺痛的 (Cambridge)

- Adapted to cutting or piercing; having a thin keen edge or fine point (merriam)

- briskly or biting cold

Diffusion: The state of being spread out or transmitted especially by contact (merriam)

* Balance is equal weight & symmetry

COMIC BY VAN NOUYEN, STAFF ARTIST/THE DAILY CAMPUS

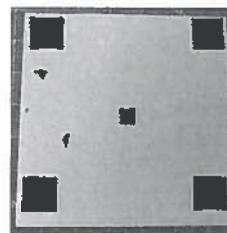

I like how simple this comic is but at the same time so interesting. The colors being limited to only reds (and white) makes it easy to process mentally. I like the brush texture they used as if kinda crayon like and fuzzy.

I'm in LOVE! w/
how simple yet
unique this one is.
makes me keep scanning
the comic over and over
again.

I don't exactly have a bad purchase but it's more so I've just spent a lot on art supplies 😞

Actually I think worst purchase was the Michael's painter's tape (red). Too weak. my paper always falls off the board.

SQUARE PAIR DISCUSSION NOTES

- ★ Depth + flatness
 - difficult quite
 - compositions are similar
 - Started w/ depth since it was easy
 - + Tried to think of words in new ways
- ★ Balance - What else could it be?
 - ↳ equal weights
- ★ Accuracy + difficulty
 - Thoughts of bullseye on dartboard
- ★ Sharpness
 - Compositions are similar to one another
 - sharp lines between squares
- ★ Diffusion
 - big open space
 - Used science as inspiration - molecules
 - Some misunderstandings are things that weren't clarified, such as not knowing if squares were allowed to touch or overlap
 - hesitation to run squares off the page

Lb

* Distortion + Accuracy

- Accuracy: making something
- distortion - not making something/more random

* Activeness and distortion were the most fun to make compositions for.

* White Space

- More was used w/ balance
- instability compositions had less white space, conveying chaos

* Symmetry

- used for balance
- negative space was a big consideration for achieving symmetry

* Difficulties and limitations:

- square limitation; only one shape to work with
- the # of squares was limiting factor
- we had trouble keeping track of the number of squares

- trouble w/ balance specifically since we think of it w/even numbers
- some lighting issues while taking pics
- X-Acto knife was frustrating
- lot of effort into making tense stand out from each other

* Humanitarianism vs human rights

- Wilson Brown
- 4 stages

- using text to make argument

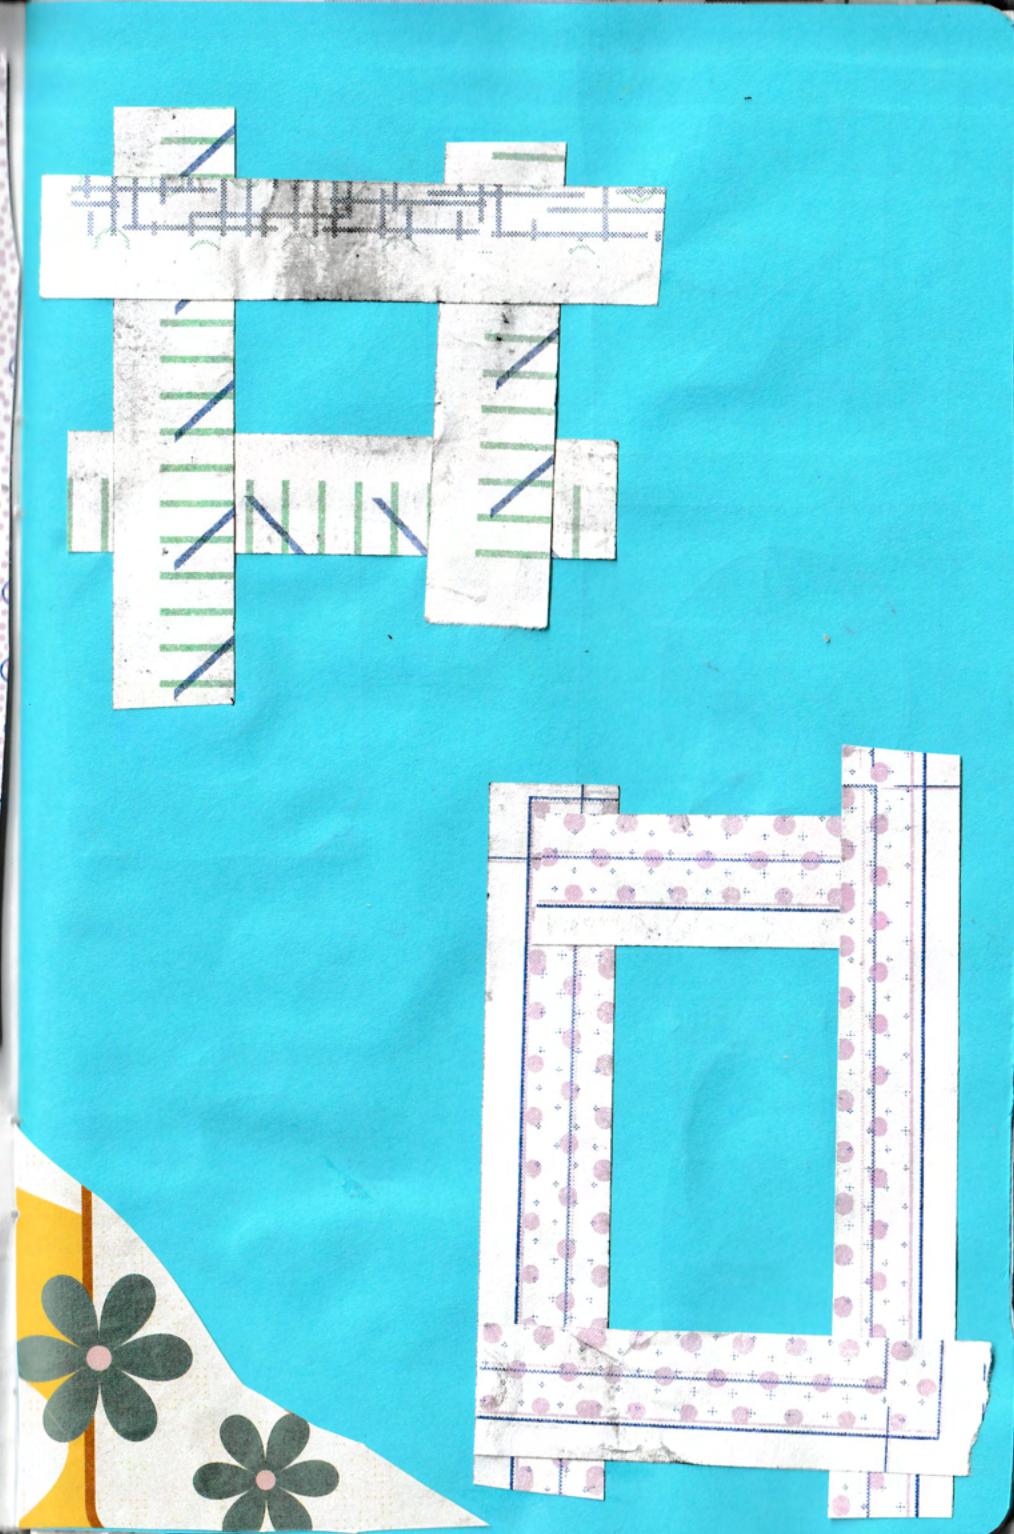

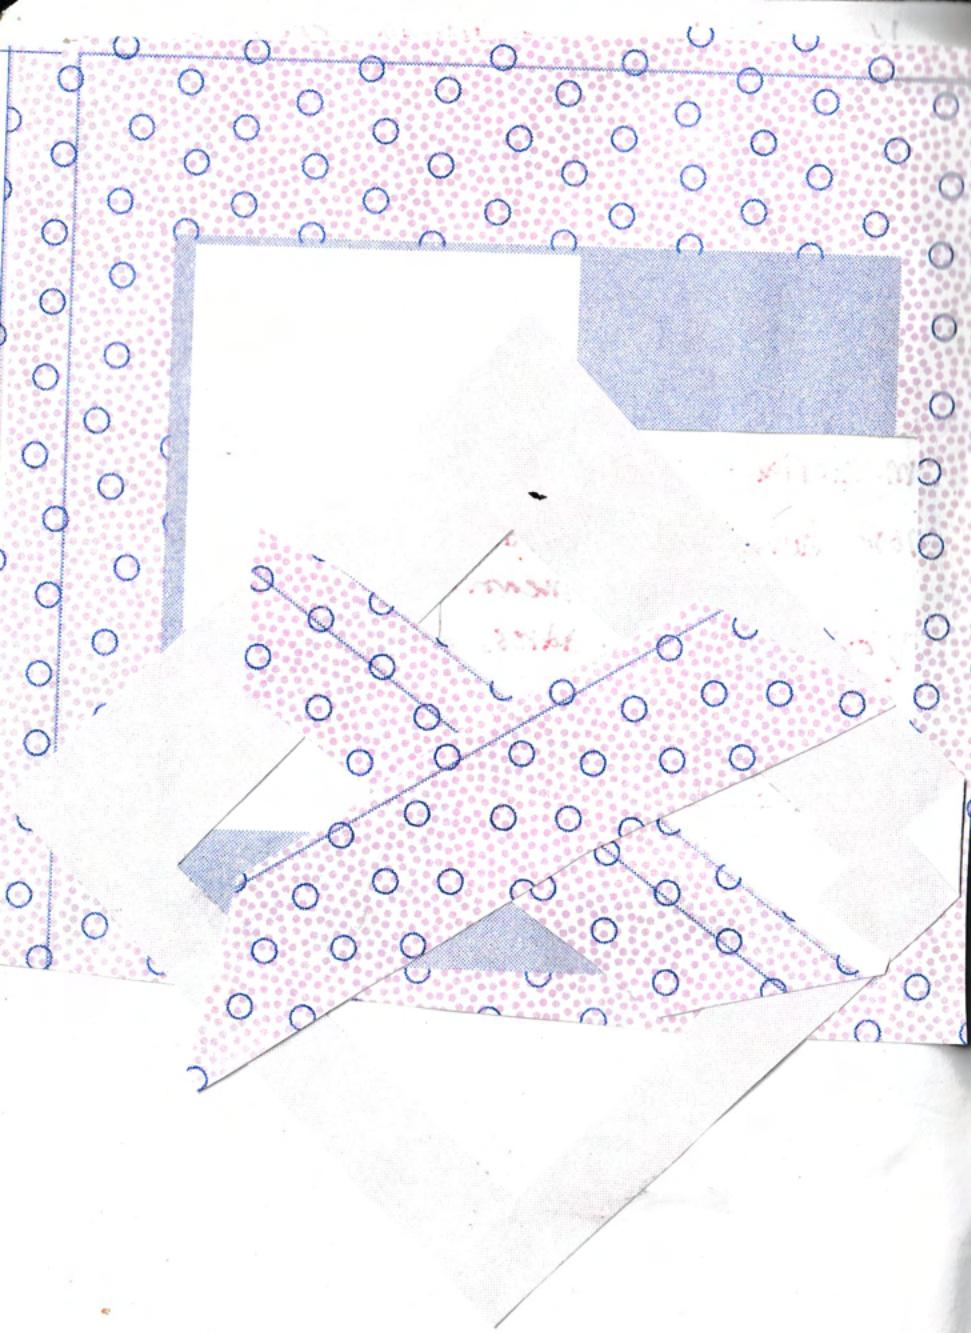

- Climate article = suffering around earth
 - ↳ images of victims help or hinder

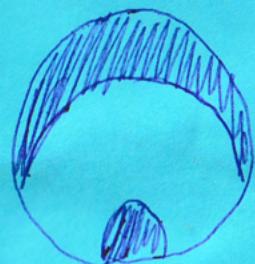

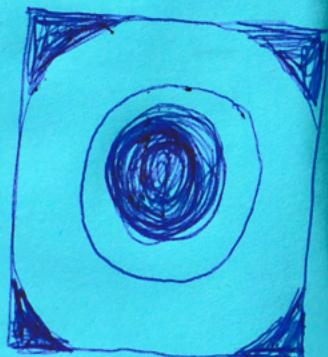

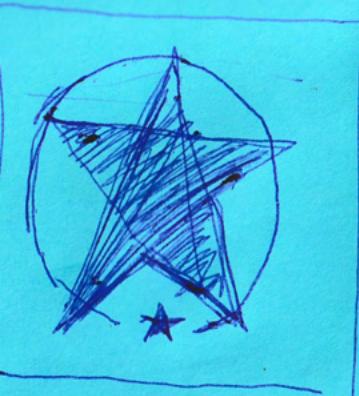

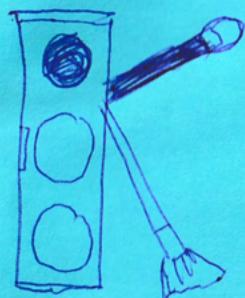

- memorial - counter memorial (gray)

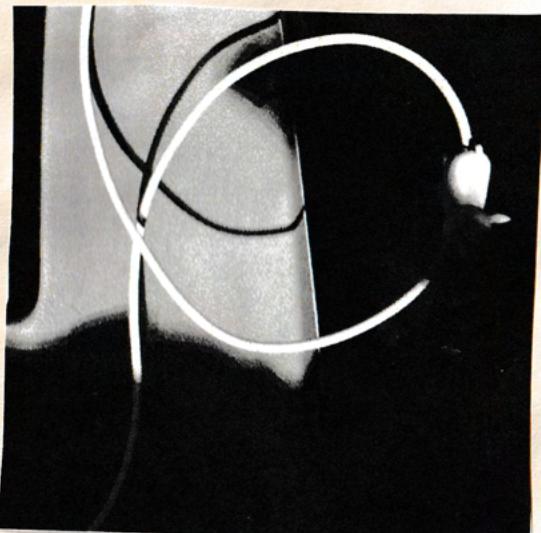

- post humanitarian - odd thoughts on giving news (traditional means)

- Post humanism - address differently. Visual language from online narratives from
